

marcobetta

The image displays a network graph with three main components. On the left is a cluster of purple nodes, with the label 'marcobetta' positioned to its left. In the center-right is a large, dense cluster of nodes colored in blue, green, red, and orange. On the far right is a smaller cluster of green nodes, with the label 'simy@mit.edu' positioned to its right. Directed edges, represented by colored arrows, connect the purple cluster to the central multi-colored cluster, and the central cluster to the green cluster on the right.
